

VAM[®] HTF

WE'VE GOT HIGH TORQUE SEALED

HIGH TORQUE FLUSH PREMIUM CONNECTION
TRUE FLUSH / ISO 13679 QUALIFIED / NEXT GENERATION TECHNOLOGY
VAM'S SOLUTION FOR WELLS WITH EXTREME TORQUE REQUIREMENTS

VAM HTF: WHAT MAKES IT BETTER?

- Its innovative design combines two metal to metal seals with threads that are optimized to provide maximum torque.
- The only extreme torque connection ISO 13679 CAL-IV qualified for tension, compression, bending, thermal cycling and gas sealability.
- Trouble-free running operations.

With a complete product line backed by VAM reliability, VAM HTF is the evolutionary breakthrough the OCTG market has needed. Just our way of extending your opportunities.
