

CLEANWELL® - Rig demonstration of the V & M dope-free solution

VMOG UK organized a demonstration of the V&M dope-free solution CLEANWELL® on the DTL Rig., in Aberdeen Bridge of Don, on July 1st 2004. Representatives of Oil and Gas companies witnessed the running of 5 ½ 23# VAM TOP HT CLEANWELL® Cr13 R3 joints. The demonstration included successfully the make-up / break-down up to 10 times without refurbishment, contamination with water, mud and sand, cleaning procedure, pulling out in doubles, simulation of various rig operational and accidental conditions.

The reliability and efficiency of V&M CLEANWELL® solution was confirmed to be "field practical".
